Now Showing at the Dizikes Art Cases:

The Dizikes Cases are located across from the Cowell Fireside Lounge, around the corner from the Dining Hall entrance. The work of Brandon Blackburn and Will Brady is on display from now until Friday, March 1st.

**Brandon Blackburn** explores his relationship to the artificial and natural environments through photography. Brandon’s photographs not only reflect his view of the world at the moment of capture, but explore our relationship to time and memory.

**Will Brady** is a third year art major, currently exploring mixed media and three dimensional work. On display is his triptych, which combines wood, paint, straw, and metal to create an assemblage that is both playful and contemplative.

What are the Dizikes Art Cases?

John Dizikes, a founder of Cowell College, College Provost during the early 1980s, and strong supporter of the arts, decided to fund a display case for student artwork. At the time the possibilities for students to display their art was limited. Thus, the Dizikes Art Cases were founded with the purpose of showcasing student artwork, curated by a student.
